Why did I buy this? Slowest game ever.. Absolute dog of a game. It's like a cheap mobile game. The 'campaign' is the same battle over and over. The ships are really boring, and even if one of them was unique, you can sink it again and again, or own 4. Combat drags on forever. Graphics weren't very good for 2009, and haven't aged well. Edit: While this game is still an absolute DO NOT BUY, I recommend checking out the developer's latest series which are all titled 'Clad in Iron.' They are much improved in all respects, and the price is quite reasonable.. Really boring ship real time strategy. Personally I love this game, though unfortunately it doesn't get any updates or anything to add to the experience.. Well, I got this cos I'm quite a nerd for ironclad ships, but I think I really wasted my money even though I got it pretty cheap on sale. The gameplay is barely there, all you can do is steer your columns of ships and tell them when to start firing. you can't target specific enemy ships, you get very

little info about the status of any ships. I was very dissapointed as I really wanted this game to be at least ok.. really sucks
