Universe Screen Saver With License Key

Are you tired of the same old Puck? Waiting in the background for you to do stuff to stay awake? A Universe screen saver is here for your well being. You can have as many Pucks as you'd like, each with different attributes. Feel free to change the attributes of your Pucks, just be sure you update the current Puck with the new information. The more Pucks you have, the more interesting your Universe. You can add new Pucks, delete Pucks, or edit the attributes of the Pucks. You have total control over the display of the Puck, and the appearance of the Universe itself. You can preview a selected frame in real time by pressing the "V" key. You have unlimited control over the Pucks, and the Universe itself. This includes which button you use to capture the screen, the number of Pucks to be spawned, the camera location, and more. Universe Screen Saver will capture your screen at a selected time and display a new Puck with interesting attributes. When you work during the day, you can then watch the Universe dawn in the night. If you're bored, just let Universe Screen Saver run in the background. It will take your mind off any work you might be doing and it will keep you awake and alert. Universe Screen Saver is an environment which you can enjoy at work, at home, or even while on the road. You can watch your Universe without being disturbed by your colleagues or family. Features: * 64 Frames of Puck-style animation * Preference Center for individual screen saver settings * Real-time previews of Pucks * Ability to capture the screen with the "V" key * Ability to spawn as many Pucks as desired * Multiple Pucks can have different parameters * Random start for Pucks * Ability to exit without a wait * Specific settings for your computer and desktop environment * Ability to stop Puck creation once desired frame has been reached Universe Screen Saver is free, but donations are greatly appreciated. Thank You! Universe Screen Saver has been made possible by: * Dirk van Dijk * Patrick Deane and two other helpers * Leopold Fritze * A special thanks to all the people who have helped by using the screen saver and in testing it. They have saved many hours of work. * Rich Smith Universe Screen Saver has been tested
